**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

I. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- i. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- ii. It is unclear as to what the applicant regards as the dynamic seal. Is the dynamic seal only comprised of the sleeve and lip? Or is the encoder also part of the dynamic seal. Examiner is unclear as to what is being claimed. The claims will be interpreted as pertaining to the sub-combination of a dynamic seal, that comprises a sleeve and annular lip.

***Claim Rejections - 35 USC § 102***

II. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- i. Claims 1-12, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by EP0949510 ("EP 510") by.
- ii. EP 510 discloses a dynamic seal comprising a sleeve and a polymer lip. The polymer lip may be made of PTFE. The sleeve is metal (FIG. 1).

Art Unit: 3676

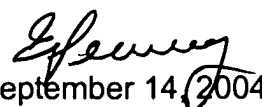

iii. Examiner's Note: the method limitation claim of 12 is given little patentable weight b/c they depend from product claim 1, and therefore is considered to be a product by process claim.
